

## Technology Acceptable Use Policy Acknowledgement 2022-2023 Academic School Year

The Hill-Murray Acceptable Use Policy is designed to provide guidance and information to students, staff and parents regarding the use of school network resources, school hardware resources, protocols for using the internet and other related topics that help provide a safe environment for our school.

The Acceptable Use Policy can be found in the Hill-Murray Student Handbook and also on the Back to School Resources Page. By signing below, you (both parent/guardian and student) are verifying that you understand and have reviewed Hill-Murray's Acceptable Use Policy along with the Student Handbook's Unwelcome Behavior Policy and agree to abide by it.

**Note:** This document should be printed, signed by each student and a parent/guardian and returned to school on either Business Days (Returning Grades 10-12) or Orientation Day (all other students).
